## Statement

### Border Securities vs Aboriginal Title

- Through many communication initiatives with the Border Security Agency our Nations have always maintained the RIGHT to travel without molestation throughout (North-America) Turtle Island
- Our Nations have respected the processes of you people when we STOP and report (which by the way is NOT a requirement of our people) we do it for respect to your process
- And now, your process to EVICT an Indigenous Elder from the territory of a Nation of Peoples is viewed as an infringement and as a form of molestation
- Therefore your continuous conduct of disrespect towards an Indigenous Elder or anyone with RIGHTS as Indigenous Peoples is in contravention of a Treaty established between the United States of America and Canada (Jay Treaty)
- As a Nation of Peoples we assert Aboriginal Title to our Territory (case law, Tsilhoqot'in) and we shall decide whether Mr. Harmon can and will reside within our territory
- We at all times DEMAND absolute proof
- Therefore your cooperation and respect towards our processes as a Nation is greatly appreciated
